EYEBOMBING PART 1

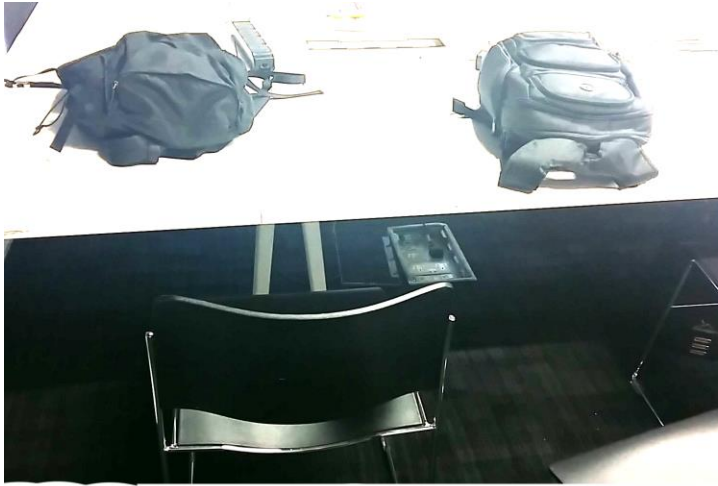

ONE TWITTE PART 2

UNION HACK PART 3

PART 1 EYEBOMBING

This image was taken from Canning Town. I wanted to explore outside the university.

This image has been taken from classroom.

From inside the building.

From excel london.

This image from the street.

Part 2 One twitte.

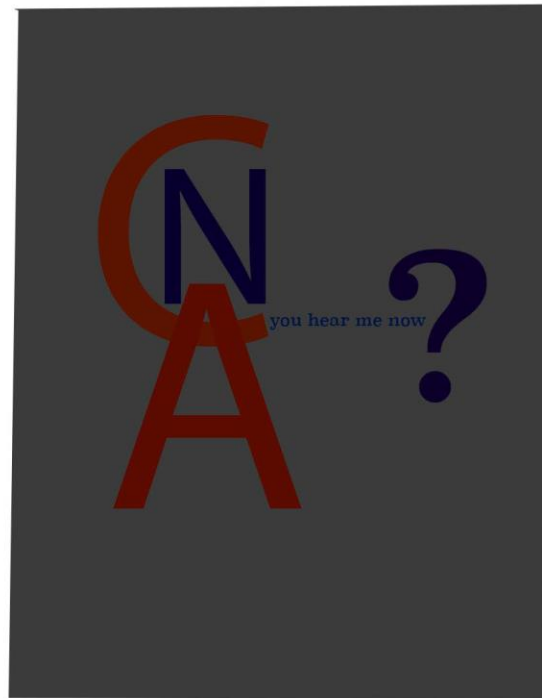

# Can you hear me now?

Blue and red mean he is from US

White mean purity. Edward snowden intention is to warn other that their privacy has been hacked and invaded other nations privacy too by both UK AND USA.

[ or he could be a tool that has been used and maybe that they want world to know what they are doing so that they can play psychological war but that could different angle too look at this but What I showing here is what is has been shown online social site and mainstream media.

FONT : I have used here is simple, reason I used it because I think ED. S is a not simple guy and by using simple font I wanted to create abstract contract from different angle.

[illegible][illegible]

Repetitions: to achieve I repeated can you hear me now? Over and over again.

**Can you hear me now?**

Here I have to created symmetry: between letter S and question mark.

This experiment 2 of previous version.

## Can you hear me now?-

The above version is hard to read this redevelopment of it.

White and black color mean same thing as I have mention before.

### PART 3 UNION HACK

This flag is for UK. [The **Union Flag**, or **Union Jack**, is the national **flag** of the **United Kingdom**. It is so **called** because it combines the crosses of the three countries united under one Sovereign - the kingdoms of **England** and Wales, of Scotland and of Ireland (although since 1921 only Northern Ireland has been part of the **United Kingdom**).

Here I have used rectangle because it has four coner, each coner represent different states which is England, Wales, Scotland and Northern Ireland.

1 Star represent United as one.

I think Egyptian flag is too complex so I think it should simple, that is the reason I have designed it. I think bird should simple.

[ Egyptian flag. The three colours of the Egyptian flag, along with its national emblem, represent the nation's modern history, from monarchy rule to British occupation to the end of oppression. The flag's red stripe represents the period prior to the 1952 revolution when King Farouk ruled the nation. The white stripe symbolises the revolution, and black stripe refers to the beginning of the modern form of government.

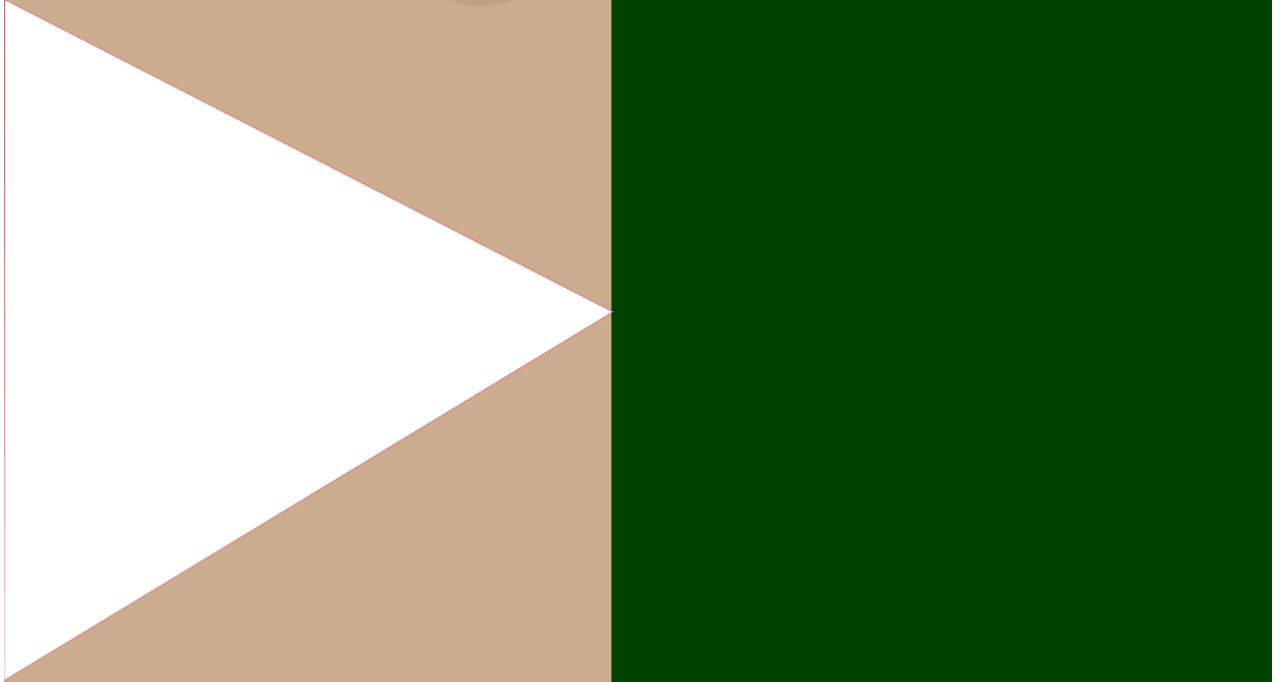

The flag also includes Egypt's Coat of Arms also known as the Eagle of Saladin, a golden eagle with its head turned toward its right. The eagle represents the Ayyubid sultan who ruled Egypt throughout the 12th century. The emblem also contains a shield and scroll bearing Egypt's name in Arabic. The shield is superimposed over the eagle, while the scroll is placed underneath both. The Eagle of Saladin replaced a golden hawk in 1984. The hawk replaced a set of stars that had emblazoned the flag until 1972.

In addition to the meanings listed above, the flag's colors symbolize hardiness, strength, valor and bravery (red), peace and honesty (white) and determination (black). Egypt's national flag is raised on all municipal buildings on Fridays, state holidays and any occasion ordered by the Minister of the Interior.]

I view Egypt as rule by military that is the I have put head of pharaoh on it.

The Egyptian take Islam seriously, green color symbolize Islam that is the reason I used green.

Left hand side I have put shape of pyramids which is to show past Egypt rich history.

After feedback

I have researched about Muslims countries. green color symbolize Muslims lands, white belong non Muslims lands and blue is ocean.

I wanted create something different than everyone else, so I have choose a Idea rather than states.

According to a 2010 study and released January 2011, Islam has 1,5 billion adherents, making up over 22% of the world population. According to the Pew Research Center in 2015 there were **50 Muslim**-majority countries.

There is not any days past by without hearing something negative about Islam and Muslims.I think if Muslims countries were united under one flag like UK or EU iraq war was less likely to occur or Syrian and Iraq problems that is happen at this movement.

We all know that some world power never allow this to happen as they follow rule of divide and conquer. In my understanding Muslims countries eventually unite again, reason history has proven it, example in many time in past unity of Muslims countries was broken by invader like crusaders and British empire. For that reason I have designed this flag. Which I have named United Ummah [Ummah mean a group]
